

Infection Prevention and Control Policy

Policy IPC-04, revision 3, effective 1 July 2025

1. Hand hygiene

Staff must perform hand hygiene before and after every patient contact. Alcohol-based hand rub must be applied for at least 20 seconds; soap and water washing must last at least 40 seconds.

2. Isolation

Organism	Precaution	Room
MRSA	Contact precautions	Single room
Tuberculosis (pulmonary)	Airborne precautions	Negative-pressure room
Influenza	Droplet precautions	Single room or cohort

3. Urinary catheters

Indwelling urinary catheters are reviewed daily and replaced only when clinically indicated. The earlier rule of routine replacement every 7 days was withdrawn in July 2025.

4. Contact

Infection control nurse: Sister Mary Joseph, extension 4410, ipc@kmch-hospital.example.
