

Customer Returns Policy

Version 4.2, effective 1 January 2025

1. Standard return window

Unless a category rule below says otherwise, customers may return products within **30 days** of delivery with proof of purchase.

All staff must follow this policy consistently across stores, warehouses and the online channel. Exceptions require written approval from the regional operations head and must be logged in the exceptions register.

Store teams should explain the policy politely to customers and offer an exchange before a refund where the product is in resaleable condition. Refunds are issued to the original payment method. This document is reviewed every year by the Customer Experience and Legal teams. Printed copies may be out of date; the version on the intranet is authoritative.

2. Category rules

The table below overrides the standard window for specific categories.

Category	Return window	Restocking fee
Electronics	15 days	12% of item price
Apparel	30 days	None
Furniture	30 days	8% of item price
Perishables / Grocery	Not returnable	-

All staff must follow this policy consistently across stores, warehouses and the online channel. Exceptions require written approval from the regional operations head and must be logged in the exceptions register.

Store teams should explain the policy politely to customers and offer an exchange before a refund where the product is in resaleable condition. Refunds are issued to the original payment method. This document is reviewed every year by the Customer Experience and Legal teams. Printed copies may be out of date; the version on the intranet is authoritative.

3. Refund timelines

Approved refunds are processed within 7 working days. UPI and card refunds may take a further 3 to 5 bank working days to appear.

4. Contact

Returns desk: returns@graphbase-retail.example, phone +91 44 4000 1234 (Mon to Sat, 9:00 to 18:00). Escalations go to Deepa Menon, Customer Care Manager.

5. History

Before 1 January 2025 the standard return window was 45 days. That rule is superseded and must not be quoted to customers.

All staff must follow this policy consistently across stores, warehouses and the online channel.

Exceptions require written approval from the regional operations head and must be logged in the exceptions register.

Store teams should explain the policy politely to customers and offer an exchange before a refund where the product is in resaleable condition. Refunds are issued to the original payment method.
